Healing Beyond Recovery

At Elixir Healers, rehabilitation goes beyond recovery. We focus on restoring independence, dignity, and quality of life.

Our integrated programs support individuals at every stage of recovery, from post-surgery and injury to illness and age-related conditions.

With clinical expertise and compassionate care, we help individuals regain strength physically, emotionally, and functionally.

When Do You Need Us?

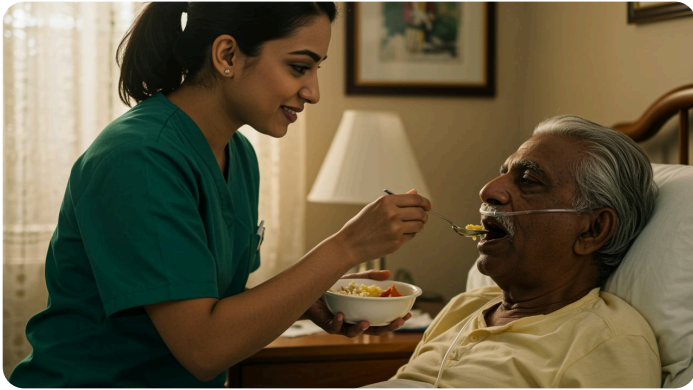

Post-Surgery

Faster Recovery, pain management and mobility restoration

Hospital Transition

Continued care after discharge for safe recovery at every stage

Neurological Recovery

Support for stroke, Parkinson's, and related conditions like RTA, Dementia, GBS, SCI, etc.

Strength Rebuilding

Rehabilitation for fractures, mobility issues, and physical setbacks like fracture rehab, sports injury recovery

Chronic Conditions

Long term care plan, arthritis, pain relief and functional training

Age-Related Support

Fall prevention, balance training, transition from Assistance walking to independent walking

OUR CORE SERVICES

Comprehensive Rehabilitation Programs

Physiotherapy Care

Continued care after discharge for safe recovery at every stage.

Post-Surgical Rehabilitation

Structured programs for safe and effective recovery.

Neuro Rehabilitation

Specialised care for stroke, Parkinson's, and neurological conditions.

Pain Management Therapy

Targeted treatments to reduce pain and improve daily function.

Assisted Living Support

Ongoing care for individuals needing supervision and assistance.

Nutritional & Wellness Support

Holistic recovery through diet, lifestyle, and emotional well-being.

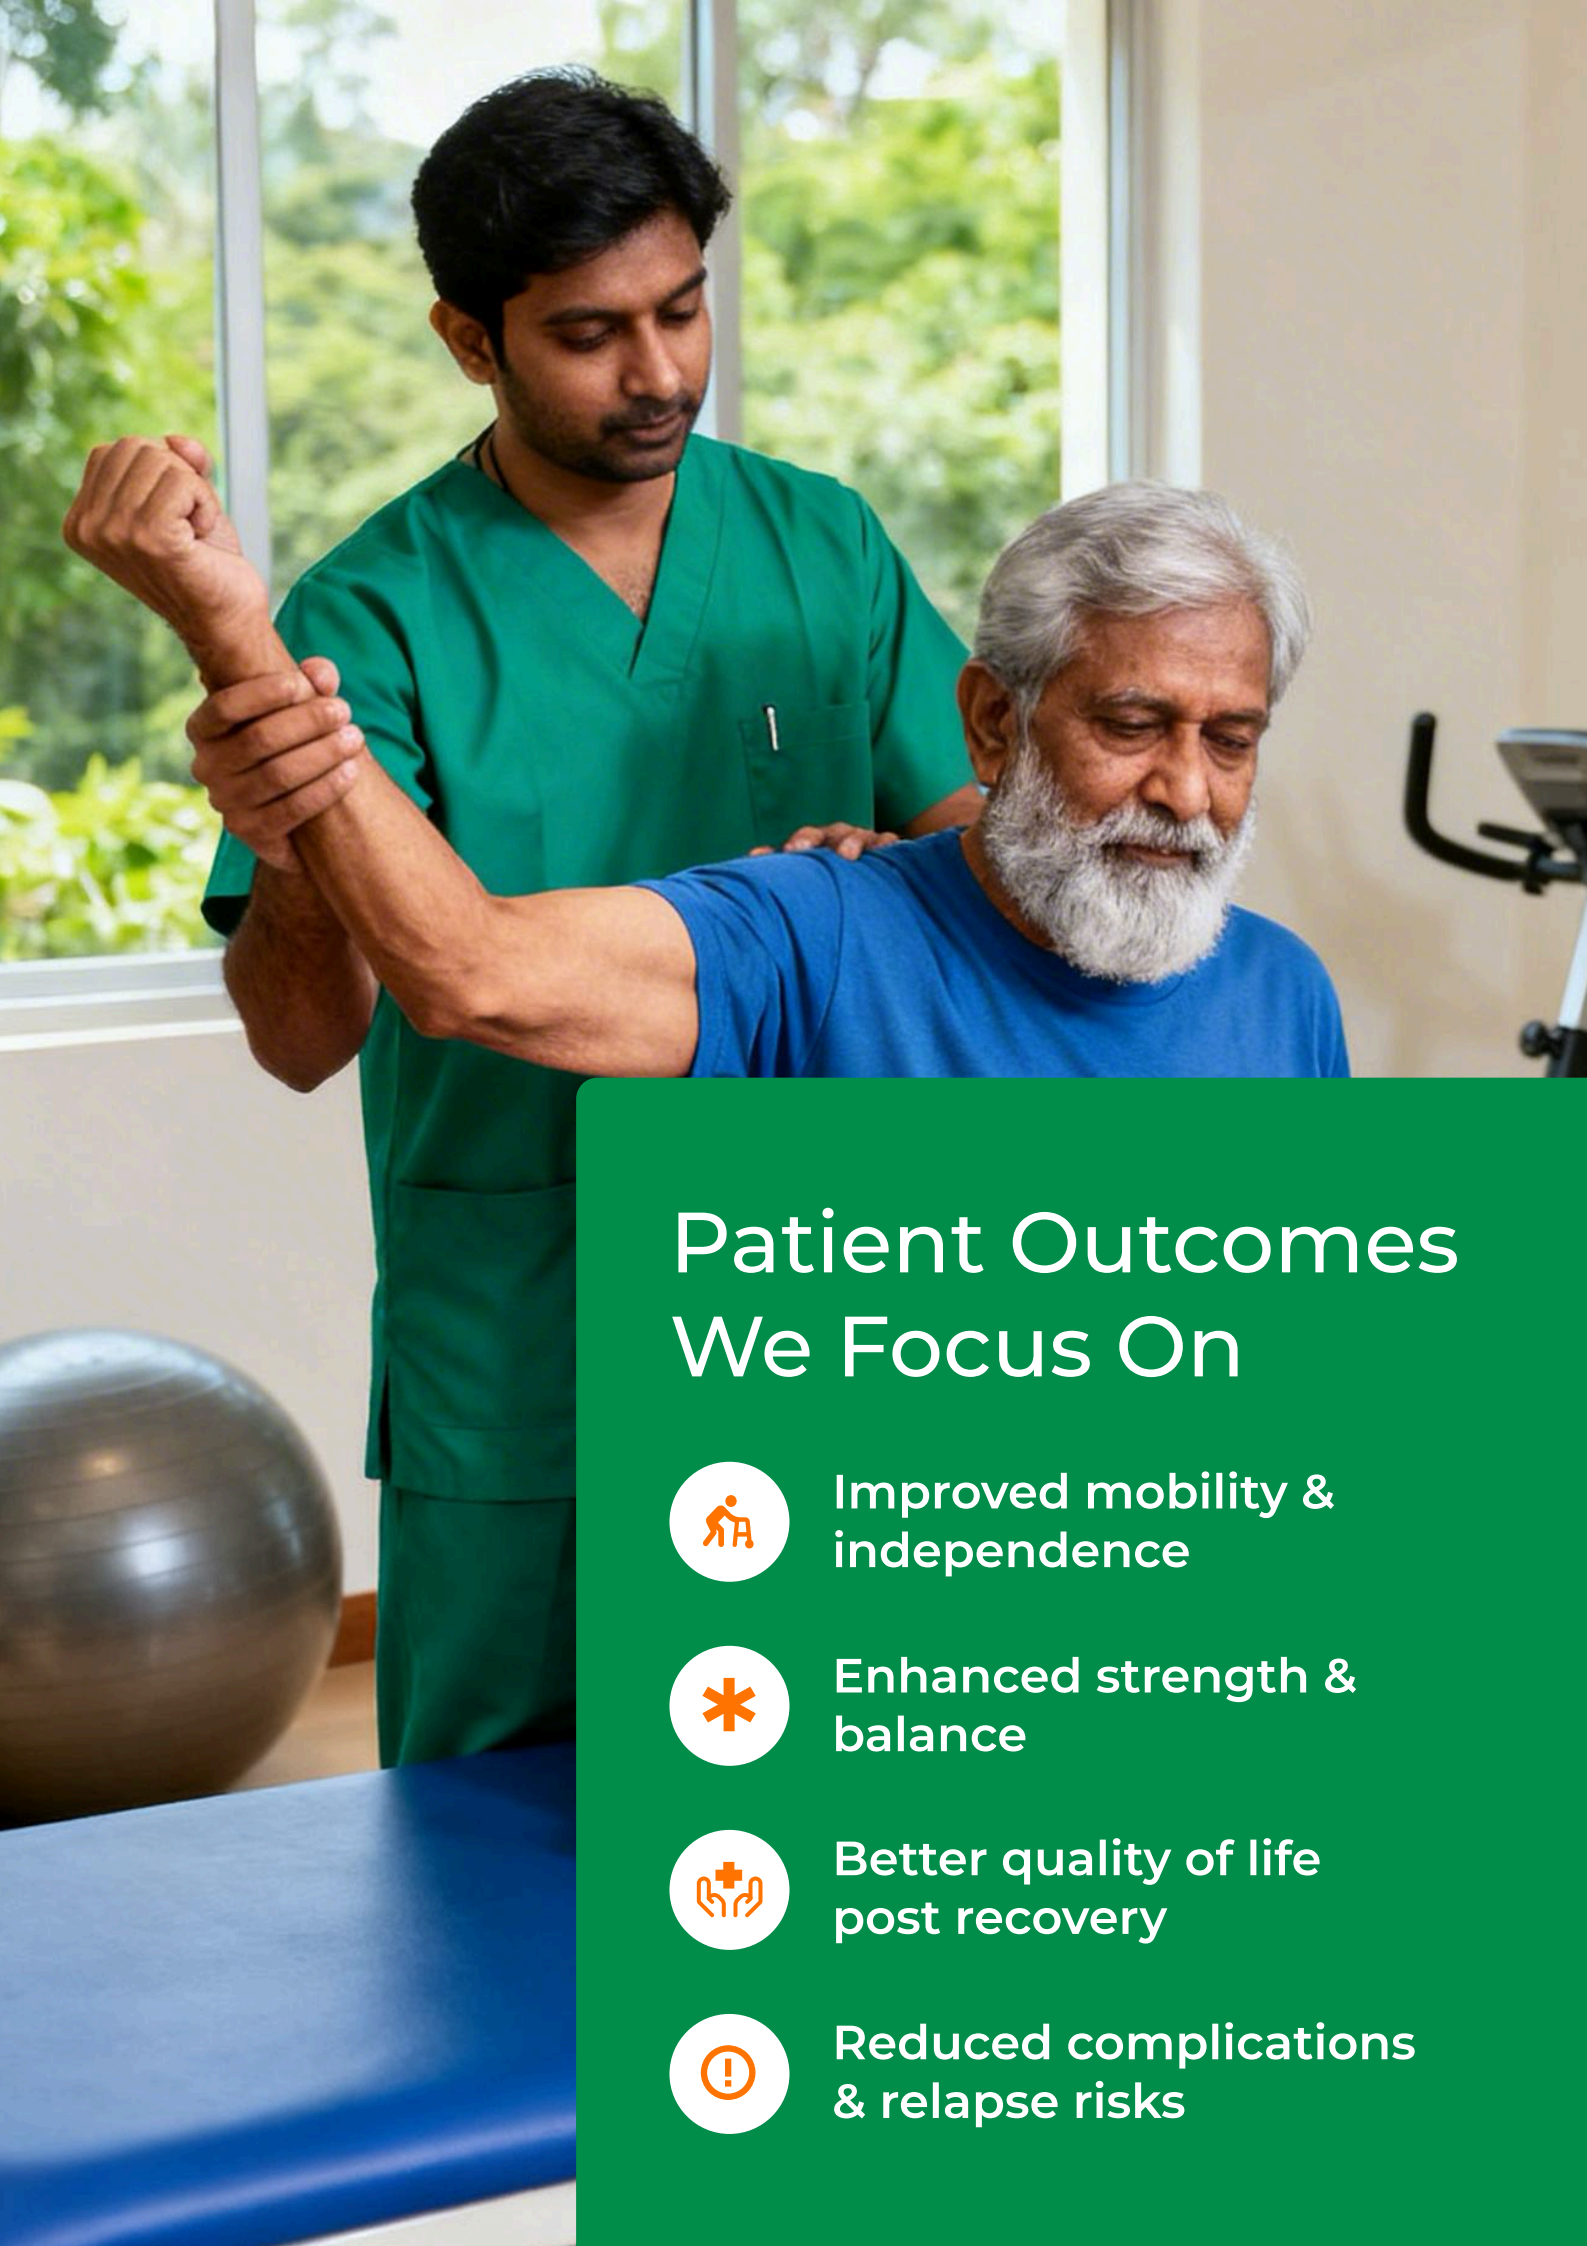

Clinical Approach

-  Diagnosis-based personalised care plans
-  Periodic progress tracking & reporting
-  Baseline functional assessment
-  Focus on ADL (Activities of Daily Living) restoration
-  Defined rehabilitation goals & timelines
-  Discharge readiness evaluation

Clinical Coordination

-  Clinical connect with primary consultants
-  Open communication for case discussions
-  Alignment with **existing treatment protocols**
-  Flexible integration with hospital discharge plans

Patient Outcomes We Focus On

Improved mobility & independence

Enhanced strength & balance

Better quality of life post recovery

Reduced complications & relapse risks

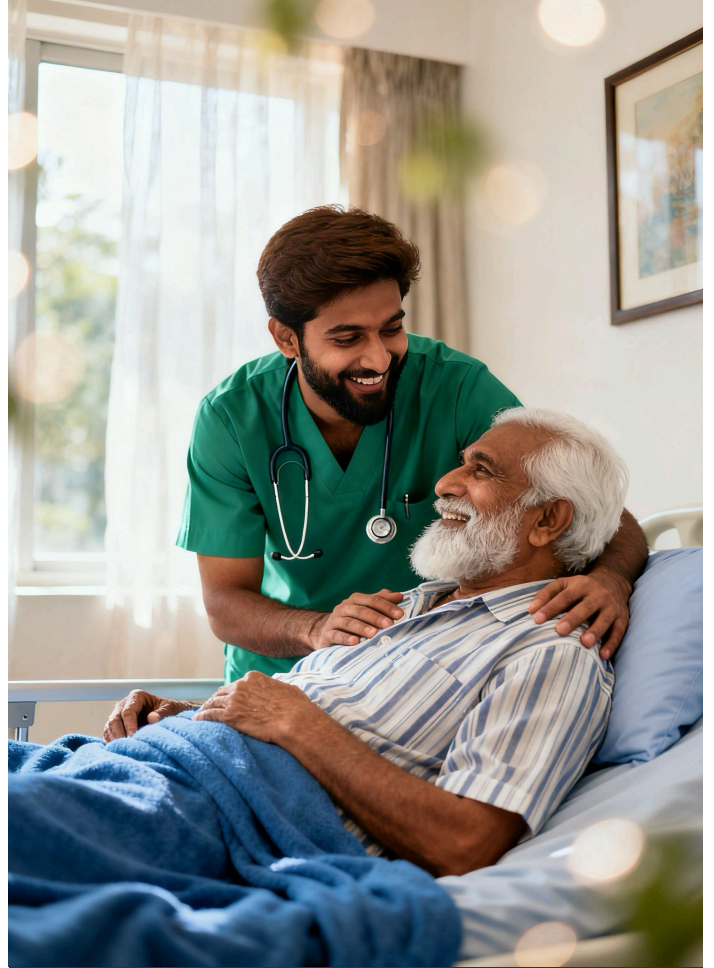

Real Stories. Real Recovery.

“

Elixir Healers helped my father regain his independence after surgery. The care and attention were exceptional.

”

“

From hospital to recovery, they made the journey seamless and reassuring.

”

Begin the Journey to Recovery Today

Whether you're transitioning from hospital care or seeking long-term rehabilitation support, we're here to help.
